

The PRIME Exit Deal

It's no secret that times are getting tougher and companies need to make savings. It might even be necessary to sacrifice some of your staff to cut down on costs. As a recruitment company, PRIME would like to assist at that end as well by making the exit part less painful and more focused on a positive future. We are offering an Exit Deal for companies who are planning to lay off people, which will make the transition much smoother!

The PRIME Exit Deal includes:

Exit interview - the interview and report will extract a more honest feedback on the company from the person leaving as well as making sure unfinished business comes to a close.

Personal Profile Analysis (PPA) - the analysis will help the person become more aware of his or hers strengths before applying for next job.

Personal career training - including CV Critique, interview training, and individual career focus talks.

Networking opportunities - the person leaving will have the opportunity to join us for the next three LiST networking events.
